LAUNCH CAMPUS MINISTRY

About the Family

I met my spouse, Nettie, while we were students in the Baptist Student Union at Pittsburg State University back in the '90s. We have two amazing daughters who participate in ministry as often as their busy schedules allow. Michaela is our eldest daughter, and Breanna is our younger daughter.

About My Ministry

We serve as collegiate missionaries at Purdue University through Launch Campus Ministry. Launch Campus Ministry—formerly known as Purdue Collegiate Ministry, Baptist Collegiate Ministry and Baptist Student Union—has existed at Purdue since 1962. The purpose of the ministry is to help students grow in their spiritual journey, from those who have never had a relationship with Jesus Christ to those who don't remember ever living without being in a relationship with Him. We are training up leaders through student leadership and helping them discover whether they are called to ministry as a vocation or called to a missional life in their careers.

Find out how you can

Pray.

Participate.

Provide.

PRAY.

Pray for us as we have high turnover because students graduate yearly. Every fall we have to reach out to a new group of students. Pray that we can see students accept Jesus Christ and also pray that those who are Christians will grow and be prepared to serve in ministry when they graduate. Pray that we will see students devote their lives to Jesus and follow God's call to vocational ministry also.

PARTICIPATE

You can join what God is doing with students at Purdue and around the world through prayer support. If your church is located in the area, there are opportunities to participate in some of our events. If you are interested please contact us.

PROVIDE

Many missionaries build a team to join their ministry in prayer, participation, and provision. These friends, family and churches support missionaries beyond the tithes and offerings given within the church plant. Visit sendnetwork.com/PlanterFunding for NAMB's policy on providing for church plants.
