

# Steven and Hannah Herrera

## PORTRAIT CHURCH

### About the Family

Our little family lives in Redlands, Calif. Steven was born and raised in California, and I am from Washington State. We just welcomed our first baby in 2024, and we are so in love with him.

Steven comes from a background in psychology and education, and I come from a background in music and education. We are thrilled to be starting this new journey of partnering with and serving college students in our beautiful city and around the Inland Empire.

### About My Ministry

We will be working specifically with college students at the University of Redlands and eventually expanding to other colleges and universities in the area. Our goal is to help lead students to Christ through relationship-building, mentorship and discipleship. We will be hosting dinners, events, worship nights, game nights and small groups both on campus and at our church.

We also want to help serve the international students on campus who are away from their homes and families while trying to navigate a new country and their education.

Find out how you can  
**Pray.**

**Participate.**

**Provide.**

#### PRAY.

Please join us in praying for strong connections and relationships with these students, for open doors into their lives, for the strength of our own family through this transition and, ultimately, for students to be saved by Jesus. Pray that God would open the hearts of students to be curious about the gospel, to be bold to share with their friends and for God's love to overwhelm each student on this campus.

#### PARTICIPATE

We deeply appreciate your partnership through prayer and giving and for your love toward our family and these students.

#### PROVIDE

Learn the ministry strategy and context, so you can provide relevant resources. Support a missionary financially.
