

Find out how you can

Pray.

Participate.

Provide.

PRAY.

Pray for boldness to share the gospel and open hearts among the people to whom we speak.
Pray for open doors to local community leaders, effective outreach and a worship space.
Pray for our faith and perseverance despite attacks from the enemy.
Pray for more families with children to come be a part of our church family and that we serve them well.

PARTICIPATE

Build relationships with missionaries and their families.
Send notes of encouragement.
Learn birthdays and anniversaries, so you can send gifts and cards.
Pray for missionaries.

PROVIDE

Learn the ministry strategy and context, so you can provide relevant resources.
Support a missionary financially.

LIVING HOPE CHURCH

About the Family

I fell in love with Jesus at the age of 6 and surrendered my life to Him. It took me quite a while to learn how to live in the gospel, but God patiently nurtured me and used my church family to help guide me. While counseling at a Christian camp, God called me into pastoral ministry.

Lacey and I love serving Christ together. We're passionate for Christ to build healthy disciples, marriages, the next generation and churches. I love developing leaders and wrote "The Multiplying Leader" to help more Christian leaders learn how to replicate.

We have four beautiful kids: Titus, Judah, Mercy and Micah. Our family enjoys spending time at the beach, reading, eating ice cream and connecting with people.

About My Church Plant

During the past 10 years, I have served in church/pastoral ministry. God called Lacey and me to plant Living Hope Church in North Sarasota, Florida, to help people fully devote themselves to Jesus and make followers of Him. We're thrilled to be part of the North American Mission Board and Send Network Florida.

We have a passion for developing leaders and desire to be part of church planting movements that bring hope to the lost in Florida and beyond. We're currently partnering with other pastors in our southwest Florida region to pray for our city and plant more healthy churches in the future.
