ACCESS CHURCH

About the Family

I married my best friend, Christi, on July 29, 2006. We have three kids: Kipton, Caden and Cohen. We live in Columbus, Ohio, where we are planting Access Church. We love Jesus, the Buckeyes and spending time with friends and family!

About My Church Plant

Access Church has existed as a vision in our hearts for several years now. It begins with the belief that God is up to something in the world, and we want to be a small part of what God is doing right here in Columbus. One of our main convictions is that too many people are settling for a fraction of what God offers in this life. We have become too comfortable with simply GOING to church. We believe that the fullness of God is available to all people. In other words, we want to BE the church as we guide people to experience life in Jesus Christ. We see a church that comes alongside families, serves our city and guides people to experience life in Jesus Christ. This isn't about building a big church; we're out to make disciples!

Find out how you can

Pray.

Participate.

Provide.

PRAY.

We're asking God to give us favor in our community and that He would use us to reach people with the gospel. Pray that God would continue to provide so we can become a self-sustaining body and that we would have plenty of resources for what He has called us to do.

PARTICIPATE

Pray for us as we are on the ground daily making connections with new families.

Partner with us financially to help us get off the ground.

Bring short-term mission teams to help us with our major community events.

PROVIDE

Many missionaries build a team to join their ministry in prayer, participation, and provision. These friends, family and churches support missionaries beyond the tithes and offerings given within the church plant. Visit sendnetwork.com/PlanterFunding for NAMB's policy on providing for church plants.
