CITY PARK CHURCH

About the Family

Taylor and I have been married for more than four years now, and consider Colorado to be home after two years here! Taylor is doing her residency/Ph.D. program in pathology at Colorado State University and has grown so much as she has progressed through it.

In addition to working for me, I am taking two seminary courses over the summer—Theology 2 and Hebrew 1. So far, the letters being read in the opposite direction hasn't been too bad. One of our favorite parts about Colorado continues to be all of the sunshine (NOT the February sunburns, though). We've been able to hit some new national parks, which Taylor has now visited, more than 33% of the 400+ total.

I'm currently reading:

- "The Other Half of Church," by Jim Wilder & Michel Hendricks
- "One with My Lord," by Sam Allberry
- "Questioning Evangelism," by Randy Newman

About My Ministry

I have officially survived my first year of being the ministry director here at Christian Challenge Fort Collins! The past year has definitely been challenging, and I continue to be so incredibly humbled by God through the process of leading this ministry. I'm just really grateful that He is with me in this endeavor.

I am pumped for the third year of ministry here at Colorado State University, which is crazy to think about! This upcoming year, we will have multiple family group Bible studies that are fully student-led. I'm encouraged by our students and their longing to make these even better than they have been this past school year!

Additionally, we hope to further emphasize and connect with the local community college (Front Range) as one of our student leaders is involved there, and God has really been placing it upon his heart.

Find out how you can

Pray.

Participate.

Provide.

PRAY.

Pray for Christian Challenge and our ability to connect with new students and increasingly make disciples of our God.

Pray that Taylor and I would continue to connect with our neighbors for the sake of the gospel and have wisdom on how to be involved in our church!

Pray for Taylor as she enters her last year of residency and studies for her last licensure exams.

Pray that I would continue to acknowledge my limits and let Jesus be Lord, not trying to be myself.

PARTICIPATE

Connect with college students at your own church or location. Spend time praying for God's work here at Colorado State University.

PROVIDE

Learn the ministry strategy and context, so you can provide relevant resources. Support a missionary financially.
