

Find out how you can

Pray.

Participate.

Provide.

PRAY.

Pray for jobs/careers, real estate, support and encouragement for our core team as we move to the corner of the state to plant Overland Church. Pray our children would make new friends and see that God is worthy of our obedience as we transition again to a new place.

Pray the students on the campus of Fort Lewis College would have open minds and hearts, pursue deep truths and be bold evangelists.

Pray for connections into the political climate, for acceptance of our offensive gospel and for favor in securing a location in our community of Durango.

Pray our core team and new partners would be faithful and steadfast in their commitment to do the hard work

PARTICIPATE

Build relationships with our family and encourage our children!

Learn birthdays and anniversaries, so you can send gifts and cards.

Partner with us with your own gifts to help advance the gospel

PROVIDE

Learn the ministry strategy and context, so you can provide relevant resources. Support a missionary financially.

Stirling Sampson

OVERLAND CHURCH DURANGO

About the Family

The Sampson family is a wild crew. Buddy, Brooke, Ainsley, Tripp, Oliver, Seth and Jude have three major characteristics in common. We love Jesus, the lost and the mountains!

Since answering the call to ministry in 2016, we have seen the Lord use our family's unique gifting for the sake of His name in a Colorado college town. We spend our free time outdoors hiking, camping, 4-wheeling, skiing, biking and exploring. We have a passion for seeing the next generation fully surrendered as radical followers of Jesus to the ends of the earth!

About My Church Plant

My family moved from Frankfort, Ky., to Fort Collins, Colo., to plant Overland Church in 2017. By God's grace, we are now being sent with a team to Durango, Colo., to plant Overland Church Durango.

I have served as a college pastor, an associate pastor and now as lead church planter.

Brooke and I have given our lives, even before being saved, to the well-being of the next generation—students at every level. The Lord has equipped our family to do hard work in hard places, particularly on the secular college campus in an extremely secular community.
