PARTICIPATE

Along with the church plant I am developing in New Jersey and New York, I collaborate closely with Ecuadorian ethnic Kichua churches in the region and have developed an online outreach network to multiply leadership and small group connection. I am currently in the church planting project and support the Hispanic churches in New York and New Jersey, as well as the Kichua's Ecuadorian churches on the East Coast.,

About the Family

I was born in México City on April 9, 1966, to an Argentinian mother and Mexican father. In 1984, I accepted the Lord at Primera Iglesia Bautista Satélite (PIB Satélite) in the state of Mexico under the ministry of Pastor Luis Gabriel Cesar, who today is a mentor and friend (www.pibsatelite.us).

My church is PIB Satélite USA, which is a Southern Baptist church in the New York City/New Jersey metro area. As church planter and pastor since 2007, I planted eight churches in 10 years in different areas of the state of California. We produced on television a gospel-centered family of believers.

My wife, my daughters and I are a family who serves God from different areas, reaching and discipling the generations to come. Help us continue the mission in North America and the world.

About My Church Plant

Our mission is that everyone has a significant encounter with God, through praise and the Sunday biblical message. Our Sunday meetings are focused on new people. Our mission is to help people grow and develop through the small groups and discipleship.

Our mission is to share and preach to thousands of people the hope that is in Jesus, so they can find love, acceptance, help, forgiveness, guidance, encouragement and help.
